PROFESSIONAL SUMMARY

Security-first developer and ICS/OT Cybersecurity Specialist with 3+ years of international freelance experience. Certified by U.S. DHS/CISA and Fortinet. Hands-on expertise in penetration testing, vulnerability assessment, ICS security, and full-stack development. Committed to building a global cybersecurity presence through continuous learning and practical contributions.

PROFESSIONAL EXPERIENCE

Freelance Cybersecurity Specialist & Full-Stack Developer

Self-Employed | International Clients | 2022 – Present

- Performed penetration testing and vulnerability assessments for clients across web, network, and ICS environments
- Built and deployed secure full-stack web apps (React, Node.js, Django, Laravel, PHP) for international clients
- Conducted network security audits, firewall configuration (pfSense), and secure code reviews
- Delivered Android app development projects (native and cross-platform) for global clientele
- Completed Deloitte Cyber Job Simulation and PwC Cyber Security Consulting Simulation via Forage
